EDUCATION

University of Miami	Coral Gables, FL
B.S. in Mechanical Engineering	Expected May 2028
- Concentration in Internal Combustion - GPA: 3.5	
Minor in Math	Expected May 2028
Certifications: CSWA SolidWorks Certification, Level 1 High-Power Rocketry Certification (NAR)	

EXPERIENCE

Mechanical Engineering Intern	Summer 2026
Dunham Associates	Minneapolis, MN
- Modeled detailed mechanical systems in Revit for 4 large-scale data center, bio lab, and hospital projects, cross-referencing existing Bluebeam drawings, TruView point cloud scans, and substantial on-site field verification - Performed quantitative flow analysis to map system components and calculate capacity shortfalls - Conducted independent field inspections across construction sites, identifying and documenting dozens of discrepancies between design and installations - Supported field verification across 10+ large-scale commercial and institutional projects, including hospitals, state office buildings, and commercial restaurants, from ground-up live construction to major remodel consulting	

PROJECTS

Suspension Control Arm Reverse Engineering Redesign	Summer 2026
- Reverse-engineered the lower control arm of a Mazda CX-3 with hand measurements and SolidWorks modeling, then redesigned it for a rally-spec using a material upgrade, cross-bracing, and strategic lightening cuts - Validated design through FEA under worst-case cornering loads, improving factor of safety by 3.8x while maintaining baseline mass	

ENGINEERING INVOLVEMENT

Canes Motorsport Formula SAE Team - Co-Founder	January 2025-Present
Drivetrain Subteam	
- Work closely with University personnel, professors, and peers to earn official approval and funding - Assisted recruiting and outreach to gain members - Utilize SolidWorks and Onshape to design vehicle chassis, powertrain, suspension, and aero components	
American Institute of Aeronautics and Astronautics (AIAA)	August 2024-Present
Mechanical Subteam	
- Selected for 8-week intensive Level 1 High-Power Rocketry Certification program - Utilize OpenRocket and SolidWorks to design, simulate, and fabricate a high-power, two-stage rocket for the Spaceport America Cup Intercollegiate Rocket Engineering Competition - Operate industrial machinery, epoxy, and welding during hands-on fabrication and construction	

ACTIVITIES

University of Miami Travel Club Baseball	August 2024 – Present
Compete in national collegiate tournaments while balancing intensive training with rigorous class load	
Beta Theta Pi Fraternity	January 2025 - Present
Participate in peer mentorship, leadership activities, and philanthropic events and fundraising for charity	

ADDITIONAL EXPERIENCE

Youth Ice Hockey and Baseball Official	October 2019 – Present
USA Hockey/ MN Umpires	Edina, MN
- Ensured safe and fair play, and upheld all rules and regulations for competition of ages 5-20 - Handled complex game situations and hostile coaches and fans with authority and composure - Awarded MN Umpires Rookie-of-the-Year by Minnesota's largest youth umpire association	
Volunteer Adaptive Ski Instructor	October 2022– April 2024
Courage Kenny Rehabilitation Center	Welch, MN
- Worked 1-on-1 with kids with disabilities, adapting to their needs and personalizing safe lesson plans to provide rewarding skiing experiences through over 100 volunteer hours - Awarded Welch Village Volunteer-of-the-Year	

LANGUAGES

Russian - Conversational Proficiency
